Woodfords Family Services is accredited by the Council on Accreditation (COA), whose program of quality improvement is designed to identify providers that have met high performance standards and have made a commitment to their stakeholders to deliver the very best quality services.

Woodfords Family Services is proud to present its 2016 Clinical Outcome Measurement Report. The report summarizes key demographics and outcome measures from all our major services. Each program has developed unique outcome measures that enable it to determine that it is serving a need and that consumers are benefitting.

The importance of this report is twofold. First, this report guides the clinical effect of services. Each program compares its current performance to established benchmarks. These benchmarks are based on program performance from previous years and each program's evaluation of what constitutes exemplary performance. In areas where outcomes do not meet these benchmarks, or where performance is declining, we develop corrective actions or program enhancements.

Second, and equally important, measuring our outcomes allows us to recognize our successes and communicate these successes to staff, families and funders. Woodfords is proud to demonstrate that it continues to meet its mission for individuals with special needs and their families.

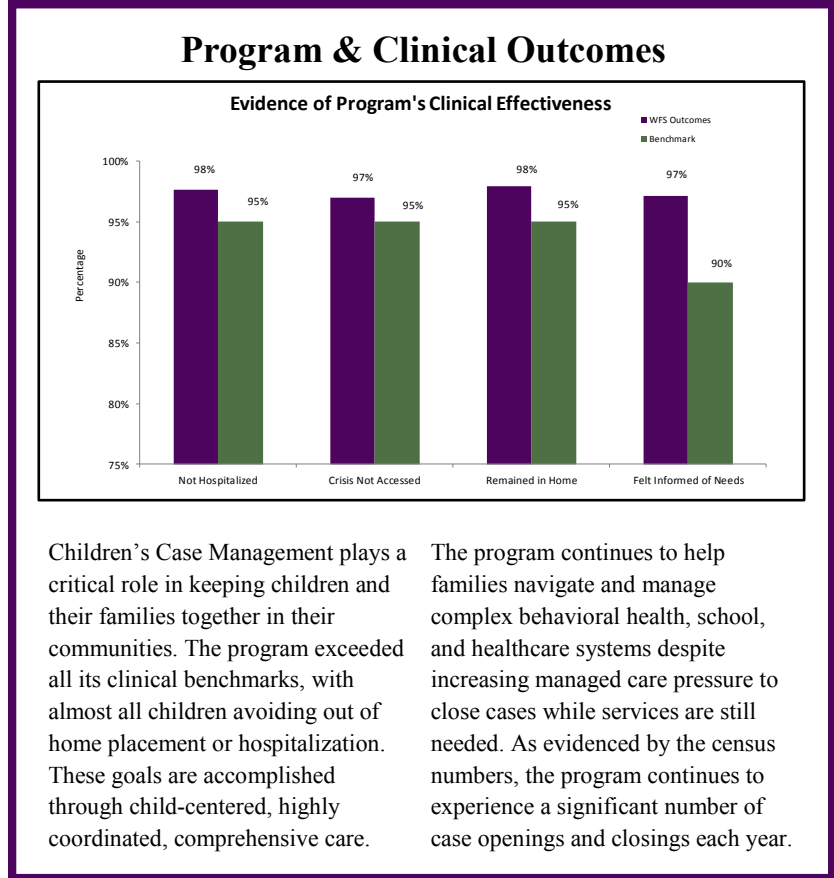

Woodfords Family Services is committed to the support and inclusion of people with special needs and their families in Maine communities.

Children's Community Case Management

Children's Community Case Management Services provide support to children with special needs and their families. Children ages birth - 20 with mental health diagnoses, autism, intellectual disabilities, developmental disabilities or developmental delays are eligible for the program. Case managers help families create a unique, strengths-based, outcome-focused service plan, connect to community resources, develop self-advocacy skills and coordinate a variety of necessary services.

Program Census

Census as of June 2016: **306**
 Total Lives Touched FY 2016: **501**

Program Satisfaction

Family Satisfaction Survey Responses			
Survey Question	Positive	Neutral/Undecided	Negative
Overall evaluation of services	82%	12%	6%
Satisfaction with support received by Case managers	94%	3%	3%
Case managers understand child's individual needs	94%	6%	0%
Satisfaction with the intake process	97%	3%	0%
Satisfaction with facilitation of service planning process	91%	6%	3%
Satisfaction with input into child's treatment plan goals	94%	6%	0%
Satisfaction with case managers' compassion	100%	0%	0%

Comments from Families:

"Our case manager has been there for our family in so many ways over the years. She has helped our family find health and happiness and community. She's changed our lives and probably many others. Thank you!"

"We have an exceptional case manager who goes above and beyond helping her clients and connecting her clients to resources."

"Our case manager is an angel! She always gets on top of whatever my son needs in a timely manner. She has been a pleasure to work with."

Early Childhood Services

Early Childhood Services provides home-based and preschool services to children ages 18 months to 6 years of age with autism, intellectual disabilities and/or mental health needs. The curriculum is based on principles of Applied Behavior Analysis (ABA) and includes instruction on daily living skills, reduction of difficult behaviors, communication, social/leisure skills and pre-academic development. The preschools are located in Oakland, Westbrook and Topsham. Home-based services are currently being provided in Southern Maine.

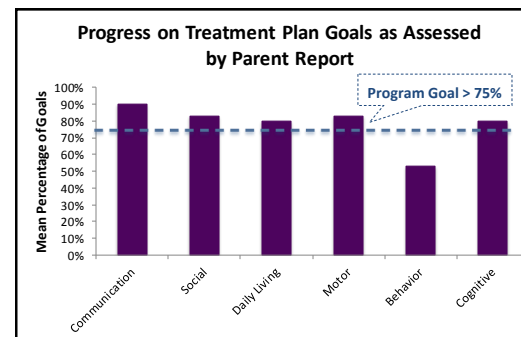

Program Census

Census as of June 2016: **115**
 Total Lives Touched FY 2016: **172**

Oakland	16	0	0
Topsham	32	0	0
Westbrook	42	15	10
Total	90	15	10
Percentage	78%	13%	9%

Early Childhood Services continue to be in high demand in Southern and Central Maine. The majority of children are served in self-contained classrooms, and the program maintains an emphasis on expanding inclusion classroom opportunities.

The program continues to expand its home-based services in Southern Maine. Program census climbed steadily throughout the year and 36 of the 115 attending in June graduated and transitioned to public school.

Children exceeded clinical benchmarks in all skill areas, with the exception of the behavior domain as rated by parents. The program has put a significant effort on placing behavior analysts in the classroom, as well as an emphasis on having well-defined and individualized goals targeting reductions of specific behaviors.

The agency is expanding Early Childhood Services in the coming year, with the opening of a new Waterville preschool in 2017.

Program Satisfaction

Comments from Families:

“Just seeing my son grow, he is able to communicate with me better and has learned so many strategies for controlling his emotions. The teachers really care about the kids and go above and beyond to help them.”

“My child is doing so well due to the structure of the classroom and the academics they do with him each day. He is getting prepared.”

“Keep up the good work, Woodfords! The staff, learning tools and continued support have made all the difference for us and our child. We are forever indebted to you all!”

Parent Satisfaction Survey Responses

Survey Question	Positive	Neutral	Negative
Satisfaction with child's services	95%	5%	0%

Have a better understanding of child's unique needs	79%	18%	3%
Child is doing better in social activities as a result of services	87%	13%	0%

Home & Community Treatment Services

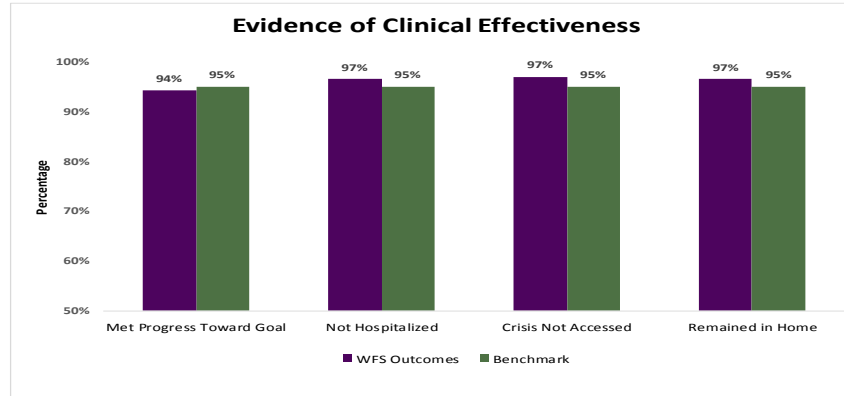

Home & Community Treatment Services (HCT) are intensive team-based services for children ages 0-20 with mental health diagnoses, autism spectrum disorders, intellectual disabilities or developmental disabilities. The services are delivered by Clinicians and Behavioral Health Professionals and include psychiatry and behavior analysis consultation. HCT relies on a variety of interventions, including Applied Behavior Analysis, complex grief therapy, motivational interview, and structural family therapy.

Program Census

Census as of June 2016: **28**
 Total Lives Touched FY 2016: **72**

Region	Census	Gender		Age				Diagnosis

Central Maine	3	3	0	2	1	0	0	3	0	0	0
Total	28	19	9	3	11	8	6	13	10	1	4

Program & Clinical Outcomes

Home and Community Treatment continues to grow steadily, with a 20% increase in consumers served in FY 2016. HCT is a critical service that is more intensive than outpatient counseling. Consumers were successful in 97% of the cases in avoiding hospitalization and avoiding use of crisis services. 94% of consumers met or made progress toward their individualized goals during treatment. This is the first year the HCT program has collected program satisfaction data. The results are positive, with 100% of families feeling satisfied with the support offered by program staff, and 100% of families indicating they would recommend the service to others.

Comments from Families:

"The HCT staff and LCSW have been wonderful. The LCSW has been a wonderful advocate for my whole family. She stood by us and the clinicians are great. Woodfords is fortunate to have such a wonderful staff."

"I know how to effectively communicate with my kids because of the skills the HCT team taught me."

"I have gotten services from other providers. In my opinion, Woodfords far exceeds the others."

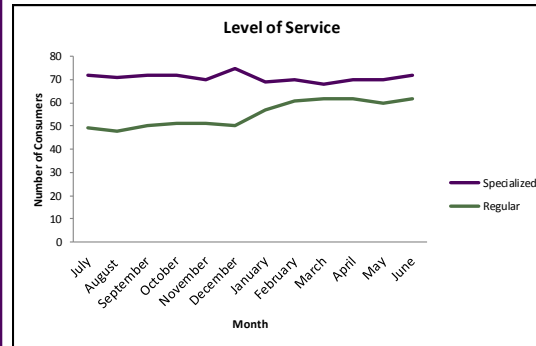

In Home Support Services

In Home Support Services support children with special needs in becoming active participants in both family and community life. Children ages birth - 21 who have a diagnosis of autism or an intellectual disability are eligible for the program. Children work 1:1 with a trained staff person in home and community settings. Services focus on enhancing children's skills through daily living, self-help, self-care, behavior management, communication and socialization.

Program Census

Census as of June 2016: 140
 Total Lives Touched FY 2016: 192

Program & Clinical Outcomes

Woodfords provides regular and specialized In Home Support Services. The regular treatment team consists of a Field Supervisor and Behavioral Health Professional (BHP). Children who qualify for specialized services receive additional support from BCBA's.

The program supports skill development in four areas: social functioning, activities of daily living (self-care), behavior and independent living. Each child has a unique set of goals with corresponding objectives based on these skill areas. Progress toward individual skill goals increased in every domain over the previous year's results.

Progress Toward Individual Skill Goals

Skill Category	% of Goals Met/ Made Progress
Social Functioning	85%
Activities of Daily Living	75%
Behavior	85%
Independent Living	83%

Program Satisfaction

Satisfied with level of support from field supervisor	88%	0%	12%
Field supervisor informs family of child's progress	83%	0%	17%
Satisfied with inclusion in child's treatment planning process	96%	0%	4%

Comments from Families:

"We have a wonderful team for both my children. We all respect each other's opinion and listen to what we have to say. Thank you for all the help."

"The support has been phenomenal. My children are doing so much better. Together, we found what works."

"Woodfords In Home Support has been a true blessing for our family. Because of this support, we have been able to watch and learn from our son's extended educational experience right in our own home."

"The last couple of months have been amazing. My child is learning so much with staff. This program has helped both me and my children."

Program Demographics

Total	63	22	13	12	26	16	0

The In Home Support program census remained steady in FY 2016 after growing by 50% the previous year. The program provides services to children across a wide geographic area, including the following 12 counties: Androscoggin, Cumberland, Franklin, Hancock, Kennebec, Knox, Lincoln, Oxford, Penobscot, Somerset, Waldo and York.

Therapeutic Foster Care

Therapeutic Foster Care provides treatment-level foster care to with special needs who cannot reside with their biological families. Children ages birth-21 with mental health diagnoses, developmental disabilities, intellectual disabilities or significant medical issues are eligible for the program. With the support of trained foster parents and a treatment team, the program's goal is to meet the needs of the child while promoting family inclusion.

The Therapeutic Foster Care program continues to achieve high rates of permanency for children in foster care. Woodfords supported the reunification of three children and families, while supporting eight additional children in kinship placements or adoption. Additionally, disrupted placements due to crisis or hospitalization remain low. This is due in part to the program's 24-hour-a-day support and team approach to meeting the needs of children and families during crises, which involves participation by foster family support workers, case managers, the Program Director and Director of Program Services.

Comments from Foster Children & Families:

“My foster family is supportive with all the decisions I make and they help me process so I make the right choices.”

“I would recommend Woodfords to all I meet. Their support is very much there.”

“The attention and knowledge my case manager provides made all the difference in our fostering journey.”

Outpatient Services

Outpatient Services provides in-office treatment at Woodfords' Westbrook location for children, youth and adults, struggling with social relationships, life changes, parenting challenges, behavior management, coping skills, anger management, puberty and/or other life issues. Services are delivered by licensed clinicians and include a variety of interventions. Clinicians also perform assessments to help determine if an individual may have an autism spectrum disorder or mental health issue.

Program & Clinical Outcomes

Outpatient Services grew considerably in FY 2016, reaching 58% more consumers than the previous year. Services include individual child and adult as well as family counseling. Outcomes exceeded benchmarks in nearly all categories. Progress toward goals and increased educational stability are two areas that are continuing to be addressed with training, supervision and case reviews.

Comments from Families:

"The support we have received from Woodfords got us through some very difficult times. I am forever grateful."

"Woodfords worked with the entire family, not taking sides, seeing all points of view, and being non-judgmental."

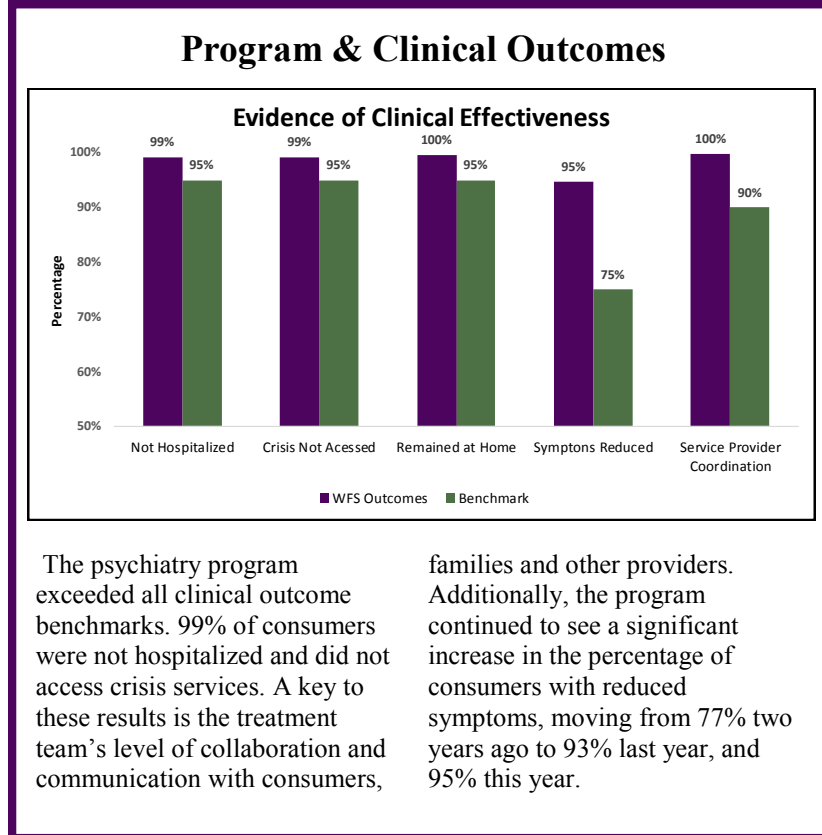

"Our son learned so much, which has helped him in his first year of school."

Psychiatry Services

Psychiatry Services provide treatment for and management of developmental, mental health and/or co-occurring disorders for children and adults. The program specializes in serving individuals with autism or intellectual disabilities. The psychiatry team embraces the concept of consumer-centered planning and assists individuals in enhancing their independence and self-determination. Services include evaluations, medication management and treatment planning.

"Knowing the Physician Assistant cares about the consumer's overall wellbeing is wonderful."

"We are highly satisfied with the Physician Assistant and Case Manager. Both are empathetic, helpful and resourceful."

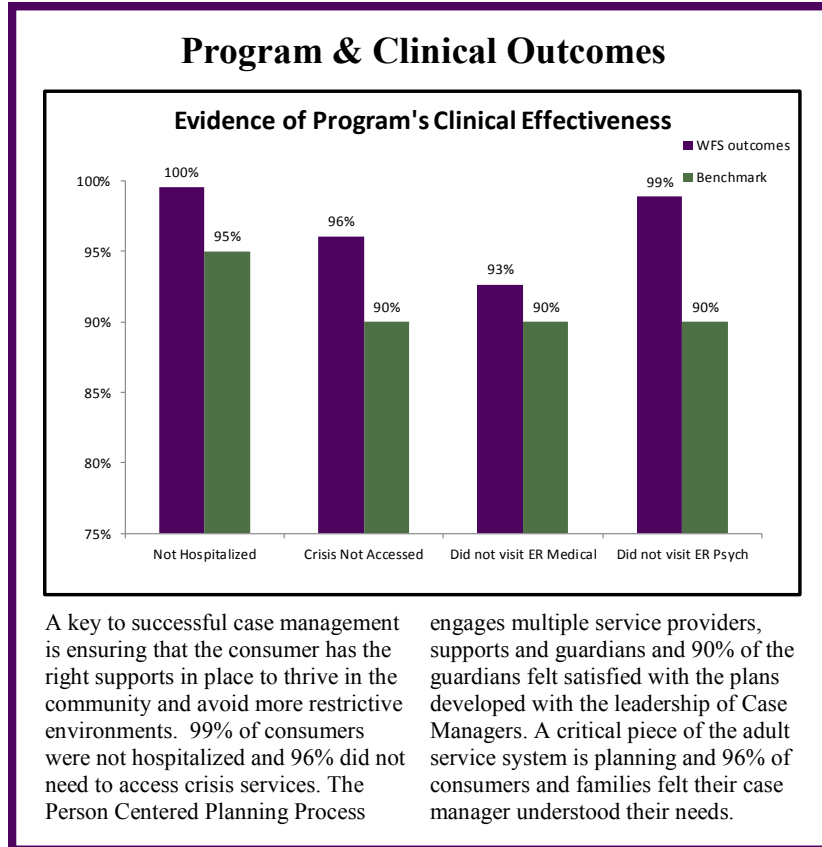

"I feel that the Physician Assistant is very good with my son. He knows how to prompt him to speak with sentences when my son would rather I talk for him."

Adult Community Case Management

Adult Community Case Management Services provide support to adults with special needs and their families. Adults age 18 and over with intellectual or developmental disabilities are eligible for the program. Case managers help link individuals to resources and services in their own communities. Each individual works with a case manager to identify strengths, interests and vision for a desired life and then receives guidance and support to achieve those goals.

“My case manager is caring, organized and a great advocate. She’s a huge asset for the Woodfords team.”

“My case manager is very proactive. She is defending my interest and looking out for my needs.”

“Our case manager is prompt in her responses and she does what she says she will do. She advocates for us! She also gets answers for us and keeps us informed.”

“They are wonderful. The best I have had in our lives. Compassionate, efficient, helpful, supportive, totally awesome.”

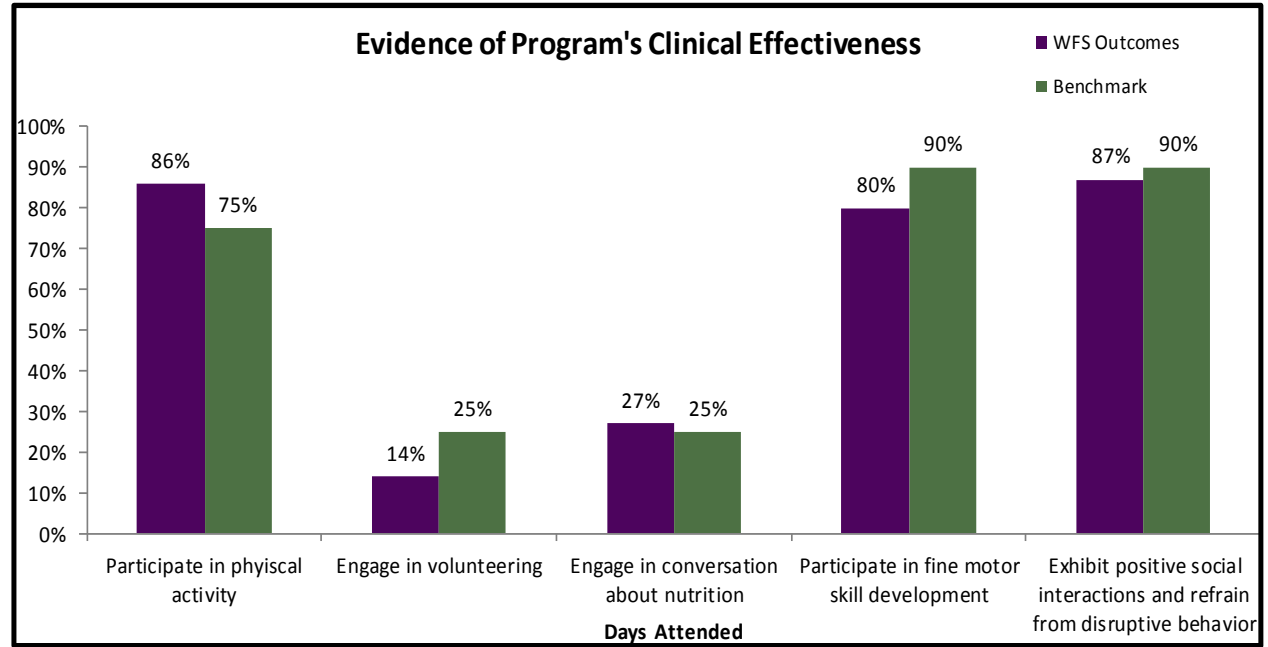

Expeditions Community Supports Program

Expeditions Community Supports Program provides year-round, community-based services for adults with developmental disabilities. The program promotes an active, healthy lifestyle by emphasizing healthy choices, new experiences and community involvement. Program staff work with individuals of all abilities to help them make choices that can yield positive, lasting benefits throughout their lives.

Program Census

Census as of June 2016: **25**
 Total Lives Touched FY 2016: **30**

Program & Clinical Outcomes

The Expeditions Community Supports Program increased its consumer census by 67% over the previous year. The program focuses on a variety of aspects of healthy living. Physical activity and hands-on activities are core components of the

curriculum and therefore, as the data shows, are completed by consumers most often. Volunteer opportunities are offered less frequently, and often in conjunction with other activity choices, and are done less often. Nutrition education is

incorporated in a variety of activities during each day, and the frequency of relevant conversations is underreported in the data above. Program staff are developing a more comprehensive tracking mechanism for the current year.

Residential Services

Residential services assists adults with special needs to reach their full potential while providing safe, stable living environments. Adults with developmental disabilities who qualify for waiver-lever services through DHHS are eligible for the program. This program is tailored to meet the needs of each consumer and is an alternative to group home living. Staff members work with consumers, their families and other service providers on individual goals to promote independence and inclusion in the community.

"I am happy about how much I succeeded with my religion and achieving my Bar Mitzvah. The support I received helped me achieve that."

"I am not so angry anymore. I get a lot support from staff. I'm losing weight because staff are supporting me."

"I like going out in my community, going to the YMCA to workout and swim, and going to the library."

Shared Living Program

Shared Living Program provides support to adults with special needs in a natural, family environment. Adults with developmental disabilities who qualify for waiver-level services through DHHS are eligible for the program. Shared Living providers can be biological parents, family members or caring individuals from the community with similar interests and compatible living situations. The program focuses on fostering relationships and promoting community inclusion and independence.
